

Intentional Success

Happy thaw Jackson,

It seems fear is the way folks communicate these days. Buy X, so Y doesn't happen to you. Vote this way so you can be protected you from certain disaster if the opponent wins.

Fear may be a useful short term motivator, but it's tiresome to deal with day in and day out. **Here are three ideas to put the good in front of fear:**

- Share with the important people in your life, why they are important to you
- Share gratitude with those who've helped you get where you are
- Help someone else... no matter how small the gesture

Based on where we are today... I fear things can only get better ;)
